- Special sessions at SciTech 2027

- **Data are due November 1**
 - Supports mini workshop at SciTech 2026
 - It's great if data are preliminary and not finalized
 - Slides will be clearly marked as preliminary data
 - There will be no accompanying paper
- **After November 1**
 - Some will continue with Test Case 2 and submit new or updated data later
 - Other individuals/teams will move onto Test Case 3
- **Grids**
 - Reminder that grids are in model scale, millimeters
 - Some grids are also provided full scale

- **Required**

- Integrated Forces and Moments
- Surface Cuts
- Time Series of a Single Point
- Custom Grid Metrics (or clear reference to committee-supplied grids; this information must be submitted for inclusion in the ensemble analysis)
- Boundary Layer Profiles (contact Brent to test a beta version)

- **Optional**

- Contour Plots

Test Case 3

- Unsteady CFD with dynamic wing
- Data update from Andrea
